Benefits of Online Courses

- ◼ "Attend" a course at anytime, from anywhere.
- ◼ Access course material 24 hours a day, 7 days a week.
- ◼ Learn 21st Century skills - critical to workers in today's world - by learning, researching, and communicating using up-to-date technologies.
- ◼ Earn a certificate or associates degree online.
- ◼ **Do In 2** – flexible scheduling helps you stay on track to finish your associates degree in two years.

Things To Consider

- ◼ Course work is completed online. Do you have regular and convenient access to an Internet connected device, preferably a laptop or desktop computer?
- ◼ The work required for successful completion of an online course is no less than that of a face-to-face course. Do you have 7-10 hours per week to spend on each 3 credit course you register for? Additional hours per week are required for condensed modular sessions.
- ◼ All eLearning courses are instructor led just as face-to-face courses are. Still, are you able to handle college-level work and study independently?
- ◼ Online courses offer convenience, not ease. Being comfortable with technology will ensure a positive learning experience.
- ◼ Online courses have specific start and end dates. Assignment schedules and due dates are determined by each instructor. Are you self-motivated and self-disciplined? Are you able to keep yourself on-time and on-task?

Application and Registration Procedures

Application and registration procedures for eLearning or Hybrid courses are identical to that of on-campus courses.
